EDITORIAL

In 2019, L'OCCITANE was on the verge of reaching its goal of providing eye care to 10 million people around the world. The brand has continued its important work of combatting preventable blindness through the joint efforts of its Foundation and its international subsidiaries. This year, a record number of subsidiaries got involved, both supporting projects in collaboration with local NGOs and selling solidarity products in support of UNICEF.

This partnership with UNICEF, which began in 2017, has already enabled more than 2 million children worldwide to receive two doses of vitamin A – essential to help their immune system fight preventable childhood blindness. Building on this success, L'OCCITANE and its Foundation committed to supporting UNICEF for a further three years, with the aim of helping 3 million more children by 2022.

The Foundation also continued its engagement in Burkina Faso, a country that has been facing security issues for many years. In 2019, the situation deteriorated and the country needs more support than ever to build resilience in women and girls, who are the most vulnerable in times of crisis.

*Reinold Geiger,
Chairman of the L'OCCITANE Foundation
and Managing Director of the L'OCCITANE Group*

Respect for biodiversity has been a priority for L'OCCITANE since its creation. In 2019, the brand reaffirmed this commitment by expanding its sponsorship activity to aid natural heritage worldwide. Thanks to a pilot partnership with PUR Projet, the Foundation is now encouraging L'OCCITANE subsidiaries around the world to fund biodiversity preservation projects in their own country. In total, 13 countries are now supporting local reforestation projects or promoting agroforestry as a sustainable production method.

Meanwhile, the Foundation continued its activities in Provence with the launch of a new three-year partnership with the Conservatoire Méditerranéen Partagé to implement the "Vergers d'avenir" (Orchards of the future) programme. This programme aims to plant 4,000 trees on 20 sites, which will enable rare and old species typical of the Mediterranean area to be preserved.

*Olivier Baussan,
Vice-Chairman of the L'OCCITANE Foundation
and founder of L'OCCITANE*

A HISTORY OF L'OCCITANE'S COMMITMENT

1980

Creation of the first fair-trade partnerships with women producing shea butter in Burkina Faso. Olivier Baussan discovered the "women's gold" of Burkina Faso and committed to supporting the women's economic development.

1997

Braille was added to most packaging to raise customer awareness and make products accessible to people with visual impairment.

2000

L'OCCITANE sold its first solidarity product, 100% of the profits* of which were donated to public-interest projects.

2011

In the wake of the 2011 tsunami, L'OCCITANE created a fund to support reconstruction projects in Japan. More than 2 million euros were raised.

2015

L'OCCITANE created the "UNION FOR VISION 10by20" programme, which unites all L'OCCITANE's initiatives around the world to combat preventable blindness. Its goal was to provide 10 million people with eye care by 2020.

2017

The start of an international partnership with UNICEF, with a minimum guaranteed funding of 1 million euros per year. This partnership aims to improve the prevention of childhood blindness by supporting programmes of vitamin A supplementation, essential for a child's immune system.

2020

Creation of a fund to support ecosystems that are severely affected by natural disasters, to protect biodiversity and respond to climate emergencies on an ad hoc basis.

Fondation
L'OCCITANE

2013

Recognition of L'OCCITANE as an exemplary company by the United Nations Development Programme for its actions with women producing shea butter in Burkina Faso.

KEY FIGURES OF THE FOUNDATION SINCE 2006

Since its creation, L'OCCITANE en Provence has been supporting initiatives to help others and protect the environment. In late 2018, building on these solid foundations, L'OCCITANE decided to define 6 key areas to devote its energy to: Respecting Biodiversity, Supporting Producers, Reducing Waste, Caring for Sight, Empowering Women and Celebrating Craftsmanship.

Three of them totally match the L'OCCITANE Foundation's commitments, thus allowing the entire L'OCCITANE community to put a greater highlight on them! One of L'OCCITANE Foundation's key priorities is caring for sight, which it does by supporting projects offering quality eye care worldwide. It is also committed to empowering women in Burkina Faso, funding education-access projects for girls and supporting women entrepreneurs to set up their own projects. Finally, the Foundation supports projects respecting biodiversity, both in Provence and around the world.

ORGANISATION OF THE FOUNDATION

THE FOUNDATION TEAM

Throughout the year, the Foundation team manages the philanthropy commitments of L'OCCITANE.

EMPLOYEES' COMMITMENT

Internationally, it is L'OCCITANE's employees who convey the brand's commitments, as volunteer correspondents for the Foundation. Among the company's subsidiaries, around thirty employees are committed to sight and biodiversity, steering their country's support towards local associations.

"I OFTEN SAY I AM ONE OF THE LUCKIEST PERSON FOR HAVING THE OPPORTUNITY TO BE CORRESPONDENT FOR THE L'OCCITANE FOUNDATION IN THE REPUBLIC OF IRELAND. JOURNALISM IS MY BACKGROUND AND IN 2011, I FINISHED MY MASTERS IN ENVIRONMENT AND DEVELOPMENT. I ALWAYS LOVED TO HEAR AND PARTICIPATE IN INITIATIVES TO MAKE THE WORLD A BETTER PLACE FOR US ALL TO LIVE. IT WAS WITH JOY THAT I ACCEPTED THE INVITE TO BE A CORRESPONDENT IN 2016.

THIS MEANINGFUL WORK OF CONSTANTLY RAISING AWARENESS TO THE FIGHT AGAINST BLINDNESS, COMMUNICATING WIDELY OUR INITIATIVES AT GLOBAL AND LOCAL LEVELS AND GIVING BACK TO COMMUNITIES TO AVOID PEOPLE GOING BLIND NEEDLESSLY, IS HIGHLY REWARDING. IMPORTANT TO SAY ALL OF THIS IS ONLY POSSIBLE WITH THE FULL SUPPORT FROM OUR SENIOR MANAGEMENT, STAFF, CUSTOMERS AND COMMUNITY IN GENERAL. THIS GROUP OF PEOPLE ALWAYS GO BEYOND TO SPREAD THE WORD AND PARTICIPATE IN DIFFERENT WAYS, SUCH AS RACE FOR VISION, ABSEILING STADIUMS TO HIGHLIGHT THE IMPORTANCE OF WORLD SIGHT DAY, BUYING OUR SOLIDARITY PRODUCTS AND GIFT SETS TO ALLOW US TO REDUCE SIGHT DISEASES.

THERE ARE STILL LOTS TO DO, BUT STILL WE NEED TO CELEBRATE THE SMALL VICTORIES. THUS, WE ARE HAPPY THAT TO DATE, WE SUPPORTED PROGRAMMES IN IRELAND (CHILDVISION) AND AROUND THE WORLD (UNICEF, SIGHTSAVERS CBY, ETC), CO-FUNDING THE ACQUISITION OF EQUIPMENT, CATARACT SURGERIES, PURCHASE OF GLASSES, SUPPLY OF VITAMIN A AND PROVISION OF EYE SCREENING IN SCHOOLS AND THROUGH OUTREACH MISSIONS IN PLACES WHERE PEOPLE WOULD NOT HAVE THE OPPORTUNITY TO ACCESS THEM."

VIVIAN SIMONATO
Communications Manager, L'OCCITANE Ireland

CARING FOR SIGHT

THE "CARING FOR SIGHT" PROGRAMME UNITES L'OCCITANE'S INITIATIVES WORLDWIDE TO COMBAT PREVENTABLE BLINDNESS. CREATED IN 2015, THE PROGRAMME, ORIGINALLY CALLED "UNION FOR VISION 10BY20", SET THE GOAL OF PROVIDING EYE CARE TO 10 MILLION PEOPLE BY 2020. IT TAKES THE FORM OF NUMEROUS PARTNERSHIPS WITH NGOS WORLDWIDE AND SUPPORTS EYE SCREENING, TREATMENT AND SURGERY PROJECTS, AND FUNDS THE ACQUISITION OF EQUIPMENT AND THE TRAINING OF MEDICAL TEAMS. SINCE THE BEGINNING OF ITS COMMITMENT TO COMBATTING PREVENTABLE BLINDNESS, THE BRAND HAS PROVIDED EYE CARE TO MORE THAN 9 MILLION PEOPLE.

2019-2020
 €1,868,166
 to care
 for sight
 2,777,632
 beneficiaries of
 eye care

A MAJOR INTERNATIONAL PARTNER: UNICEF

One in three children aged between six months and five years old – 127 million children worldwide – suffer from vitamin A deficiency, which is one of the leading causes of childhood blindness. In 2017, L'OCCITANE and its Foundation launched a major international partnership with UNICEF.

Over a period of 3 years, and with a guaranteed minimum funding of 1 million euros per year, the partnership aims to improve the prevention of childhood blindness in Bolivia, Myanmar and Papua New Guinea, countries where the deficiency is particularly severe, by distributing the two vital doses of vitamin A that are essential to a child's immune system.

Since the start of the partnership, more than 2 million children have received vitamin A supplementation, already exceeding the goal of 1.7 million children in 3 years that UNICEF and L'OCCITANE set at the start of their partnership!

Building on this success, L'OCCITANE and its Foundation renewed this partnership in 2020 for a further three years and extended it worldwide. More than 3 million additional children should thus have received the two vital doses of vitamin A by 2022.

SOLIDARITY PRODUCTS

IN 2019-2020, SOLIDARITY SOAPS WERE SOLD IN SUPPORT OF UNICEF*. 100% OF THE PROFITS**, I.E. €620,054, WERE DONATED TO UNICEF* AS PART OF THE INTERNATIONAL PARTNERSHIP.

* UNICEF does not endorse any company, brand, product or service. ** Price in store minus taxes, transport and production costs.

THE FOUNDATION'S PARTNERS IN BURKINA FASO

SIGHTSAVERS

The Foundation supports Burkina Faso in its fight to eliminate onchocerciasis (river blindness) and trachoma. Since 2013, its collaboration with the NGO Sightsavers in the Cascades region has made it possible to treat more than 40,000 people a year against onchocerciasis. The partnership has also enabled care to be provided to more than 32,000 people in the fight against trachoma. Evaluations and surveys planned for next year will make it possible to map the progress of these years of treatment.

LIGHT FOR THE WORLD

One of the Foundation's key initiatives in Burkina Faso in the fight against preventable blindness is the sustainable improvement of access to high-quality eye care. To this end, it is supporting two major projects run by the NGO Light for the World:

- Improving healthcare professionals' skills and knowledge through training (conventional and specialised) and the provision of equipment.
- Supporting the implementation of screening and treatment programmes carried out by trained and equipped health workers in the seven districts of the Centre-Ouest region.

More than 25,000 people have benefited from this partnership.

ASSOCIATION SOEUR EMMANUELLE & HELEN KELLER INTERNATIONAL

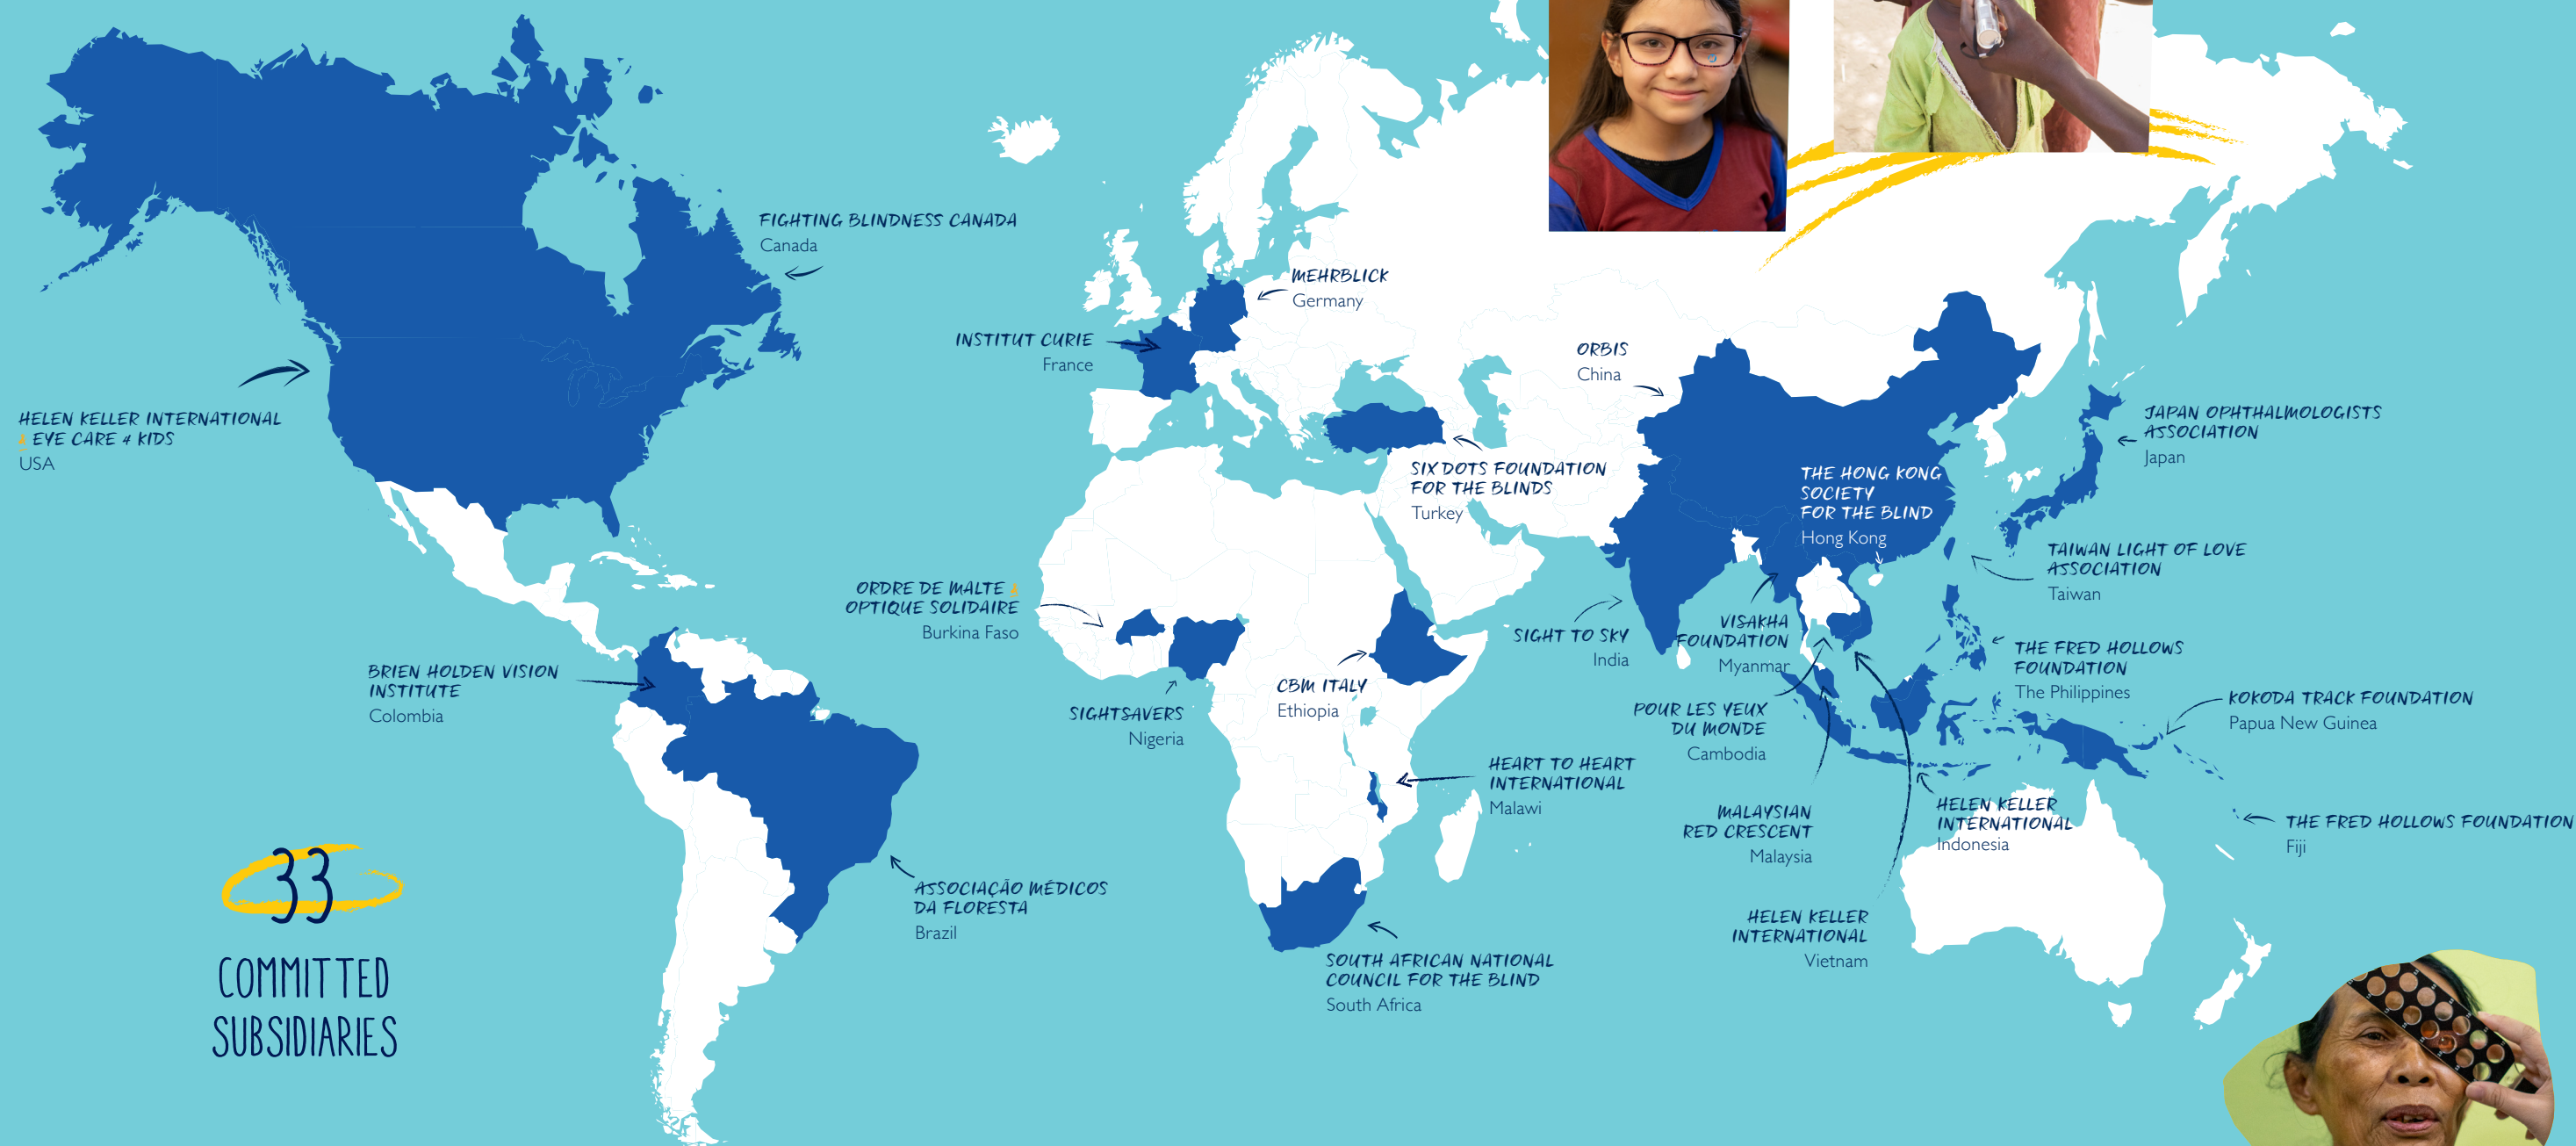

This year, the Foundation focused on children, signing two partnership agreements with the Association Sœur Emmanuelle and the NGO Helen Keller International. The main goal of these two-year partnerships is to prevent childhood blindness through raising awareness among parents and teachers and through eye screenings and treatments when needed.

L'OCCITANE SUBSIDIARIES' LOCAL PARTNERS

Company subsidiaries play a crucial role in the brand's commitment to caring for sight. They get involved every year by supporting projects in partnership with UNICEF or local associations from their country. These projects combatting preventable blindness are co-funded by the subsidiaries and the L'OCCITANE Foundation. Here are all the local partners we supported in 2019–2020, thanks to the involvement of our correspondents:

EMPOWERING WOMEN

SINCE THE 1980S, L'OCCITANE HAS WORKED IN CLOSE COLLABORATION WITH WOMEN PRODUCING SHEA BUTTER IN BURKINA FASO. THE L'OCCITANE FOUNDATION SUPPORTS NGO PROJECTS IN AID OF THE GIRLS AND WOMEN OF BURKINA FASO, WITH THE AIM OF ENABLING THEM TO PARTICIPATE IN THEIR OWN DEVELOPMENT AND TO INSTIGATE CHANGE. SINCE THE BEGINNING OF ITS COMMITMENT TO EMPOWERING WOMEN, THE FOUNDATION HAS SUPPORTED MORE THAN 31,000 WOMEN IN BURKINA FASO. IN 2019-2020, FOUR PROJECTS WERE DEVELOPED THAT FOCUSED PRIMARILY ON LEARNING AND ENTREPRENEURSHIP.

2019-2020

€429,150

to empower women

15,041

women supported

THE FOUNDATION'S PARTNERS IN EDUCATION PROJECTS

UNICEF

The Foundation supports UNICEF in the implementation of its education for girls programme in the Centre-Ouest region of Burkina Faso. The programme accompanies the girls from admission through the four years of secondary schooling, paying all their education-related expenses (tuition fees, school supplies, meals, bicycles, accommodation, etc.). The project also focuses on raising awareness among girls and communities.

Thanks to these initiatives, in 2019, the percentage of girls receiving aid who made it to 8th grade was 84%, which is significantly higher than the regional and national averages.

AIDE ET ACTION INTERNATIONAL

Since 2009, the L'OCCITANE Foundation has supported the Aide et Action literacy project. The Foundation funds the building and equipping of literacy centres, as well as their operating costs. The project also includes the development of collective income-generating activities with the aim of ensuring the financial autonomy of these centres in the long term. In 2019-2020, 148 women benefited from this project.

THE FOUNDATION'S PARTNERS IN ENTREPRENEURSHIP PROJECTS

LA FABRIQUE & INITIATIVE FRANCE, L'OCCITANE POUR ELLES PROJECT PARTNERS

The fine progress made by the winners of the first contest organised by the L'OCCITANE pour Elles programme, launched in 2016, encouraged the Foundation to organise a second contest in 2019. 8 entrepreneurs, would-be entrepreneurs and managers of businesses with high social and environmental impact were selected:

AISSA TRAORÉ, manager of BIOBAG, which offers an alternative to the use of plastic bags by designing paper packaging.

ALEXANDRA PARKOUDA, founder of APPRENDRE AUTREMENT, which offers creative and handcrafted games, made locally, that help develop children's awareness and increase their self-confidence.

AMIRATU PORGO, director of RECYCL'AFRIK, which collects waste from large cities (including used tyres) and transforms it into furniture and decorative objects.

CARINE DAYAMBA, manager of SATORI MOANA, which seeks to improve the care given to people with autism spectrum disorders.

EMILIE KIENDRÉBÉOGO, manager of PALOBDE SERVICES, which manufactures washable sanitary-protection products that are made mainly from local natural materials.

MARIE KANLA, joint manager of KAALA, who gives a second life to (naturally) dead wood by transforming it into timber, furniture and objects.

SANDRINE OUOBA, joint manager of DOUX GOUT, which makes fruit and vegetable purées from locally grown organic produce using natural processes.

STÉPHANIE ZONGO, founder of REPERE MAGAZINE, an online platform designed to help young people choose an appropriate occupation and define their professional training and career plan.

ENTREPRENEURS DU MONDE

Since 2009, the Foundation has supported projects developed by ENTREPRENEURS DU MONDE in support of women in rural areas. Through its partnerships with social microfinance institutions, the NGO offers them financial and non-financial services to develop sustainably income-generating activities (loans adapted to the needs and situations of borrowers, training and loan-management advice).

In 2019-2020, 14,148 women benefited from this project.

SOLIDARITY PRODUCTS

L'OCCITANE SELLS SOLIDARITY PRODUCTS TO SUPPORT THE SOCIO-ECONOMIC DEVELOPMENT OF WOMEN IN BURKINA FASO. ALL THE PROFITS* ARE DONATED TO NGO'S PROJECTS. IN 2019-2020, €715,241 WERE RAISED.

* Price in store minus taxes, transport and production costs.

RESPECTING BIODIVERSITY

FOUNDED IN ALPES-DE-HAUTE-PROVENCE, L'OCCITANE HAS BEEN COMMITTED SINCE ITS CREATION TO PRESERVING THE NATURAL HERITAGE OF PROVENCE AND THE MEDITERRANEAN REGION. IN 2019-2020, THE FOUNDATION NOT ONLY CONTINUED THIS COMMITMENT IN PROVENCE BUT ALSO DECIDED TO TAKE ACTION ON A WIDER SCALE, BY ENCOURAGING L'OCCITANE SUBSIDIARIES TO SUPPORT LOCAL PROJECTS INVOLVED IN REFORESTATION OR THE PROMOTION OF AGROFORESTRY (VIA THE INTERNATIONAL PARTNERSHIP WITH PUR PROJET OR BY DIRECTLY SUPPORTING A LOCAL PROJECT). THE BEGINNING OF 2020 ALSO SAW THE LAUNCH OF THE L'OCCITANE ECOSYSTEM RESTORATION FUND, CREATED IN THE WAKE OF THE FIRES IN AUSTRALIA. SINCE THE BEGINNING OF ITS COMMITMENT TO RESPECTING BIODIVERSITY, THE FOUNDATION HAS HELPED PROTECT MORE THAN 700 SPECIES.

L'OCCITANE SUBSIDIARIES' LOCAL PARTNERS

2019-2020

€344,380
to respect
biodiversity

200
protected
varieties

PUR PROJET Canada

Planting of 4,900 trees of two species of pine as part of a reforestation programme in Ontario that enabled the conservation of wildlife and their habitat.

PUR PROJET USA

A huge agroforestry project, that has a positive impact on carbon sequestration and combatting fires, enabled the planting of 5,900 trees in collaboration with Californian producers.

REFORESTAMOS MÉXICO Mexico

A project to raise public awareness of the importance of preserving the biodiversity and stability of forest ecosystems was supported.

PUR PROJET UK

An agroforestry project on land cultivated in monocultures enabled 5,000 trees to be planted and local producers to be trained in sustainable farming practices.

PUR PROJET France

Support given to an agroforestry project in Provence with a goal to plant 3,000 trees to limit erosion.

PUR PROJET Germany

Planting of 1,400 trees of two different species as part of a reforestation project to restore biodiversity and combat climate change.

PUR PROJET Poland

A project to rehabilitate traditional orchards and restore the rural landscape enabled the planting of 540 fruit trees of four different rare or old species.

PUR PROJET Romania

A reforestation project in the Transylvanian forest, involving schoolchildren who were made aware of the importance of preserving biodiversity, enabled the planting of more than 4,000 trees of four different species.

SCOUT AND GUIDE ASSOCIATION OF CROATIA Croatia

Support given to the national "Boranka" project enabled 1,000 trees to be planted as part of a reforestation programme.

PUR PROJET Japan

Planting of 1,300 trees of 18 different species to restore areas damaged by the 2011 tsunami and recreate a natural barrier of forests along the coasts.

PUR PROJET Australia

Planting of 2,000 indigenous trees as part of a reforestation project and launch of a programme to raise awareness of the importance of environmental protection.

PUR PROJET New Zealand

Launch of a reforestation programme involving native species. More than 1,800 trees were planted and 4 varieties protected.

FOOD AND TREES FOR AFRICA South Africa

Planting of 300 Moringa trees with the involvement of schoolchildren in a project that has environmental, educational and socio-economic benefits.

13
COMMITTED
SUBSIDIARIES

An international partner:

PUR PROJET

Through reforestation and agroforestry initiatives, PUR Projet helps companies restore the ecosystems on which they depend. In addition, getting local communities involved enables them to improve their living conditions. PUR Projet encourages the development of innovative projects and local entrepreneurial initiatives for a sustainable, positive and ethical economy.

The L'OCCITANE ECOSYSTEM RESTORATION FUND

In January 2020, L'OCCITANE announced the creation of a fund to support ecosystems that are severely affected by natural disasters, such as the devastating fires in the Amazon and Australia. Determined to protect biodiversity for future generations, the L'OCCITANE Ecosystem Restoration Fund aims to respond to climate emergencies on an ad hoc basis. The fund will be financed by a voluntary internal donation campaign among L'OCCITANE's shareholders.

THE FOUNDATION'S PARTNERS IN PROVENCE

CONSERVATOIRE MÉDITERRANÉEN PARTAGÉ

In 2019, the Foundation entered into a three-year partnership to implement the "Vergers d'Avenir" (Orchards of the future) programme, which aims to plant 4,000 trees on 20 sites in Provence.

The programme's objective is to conserve and promote typical Mediterranean species, and so participate in the development of sustainable agroecological practices and in the restoration of Provençal landscapes. In 2019-2020, 165 trees of a rediscovered old variety, the Prune de Brignoles or Perdigon, were planted.

INTERNATIONAL UNION FOR CONSERVATION OF NATURE

Since 2015, the Foundation has supported the formulation of the Red List of Mediterranean ecosystems.

These lists, beneficial knowledge tools, are used to design conservation strategies, identify priorities for action, develop policies and regulations and raise awareness. In 2019-2020, the chapter on coastal ecosystems on sandy substrates revealed that around 26% of the Mediterranean coastline in France is classified as "endangered" or "vulnerable".

ACT FOR PLANET

In 2019, the Foundation supported a project to restore chestnut groves on the Contadour plateau in Provence.

Planting chestnut trees not only supports local agricultural production but also preserves biodiversity and combats climate change. This year, the Foundation enabled the planting of 200 more trees and the conservation of 4 rare or old chestnut varieties.

ASSOCIATION DE SAUVEGARDE DES FORÊTS VAROISES

Since 2018, the Foundation has supported a natural heritage conservation project on the Île de Porquerolles.

The island is home to orchards with a unique genetic heritage. Thanks to this project, 140 species were conserved and developed in 2019, and nearly 1,000 visitors were introduced to the importance of protecting this natural heritage.

COMMUNAUTÉ DE COMMUNES PAYS DE FORCALQUIER ET DE LA MONTAGNE DE LURE

In the Forcalquier and Lure Mountain region, aromatic and medicinal plants are at the heart of daily life and tourism.

The Foundation supports a project for a nature trail that educates visitors about how these plants were picked in the past and are used today and introduces them to the Lure Mountain's natural resources. The aim is to preserve this heritage by channelling tourist flows and raising public awareness of the importance of protecting it. 23 endemic varieties were developed and preserved.

PARC NATUREL RÉGIONAL DES CALANQUES

The Foundation is supporting the creation of an educational and conservation garden on Île de Ratonneau, on the Frioul archipelago near Marseille.

The project introduces visitors to the flora, including species such as *Astragalus tragacantha* (astragale de Marseille) and *Plantago subulata* (plantain à feuilles en alène), of one of the most arid areas in France, shaped by the sea and the Mistral wind. This helps to combat the erosion of biodiversity, to promote rare and endangered plants and to raise public awareness of the importance of conserving the natural heritage.

PARC NATUREL RÉGIONAL DU VERDON

Since 2019, the Foundation has supported a conservation programme for old apple and pear tree varieties of local interest.

The project involves identifying varieties and transmitting agroecological skills, in order to promote diversified fruit production and the restructuring of old orchards in collaboration with local producers. It also tackles agricultural issues related to climate change.

TERRE DE LIENS PACA

The Foundation supports the development of agroecological infrastructures.

Planting diversified hedges, in particular, increases biodiversity by creating new refuge areas for wildlife and promoting the diversity of species. This project, carried out as a community volunteer project, involved 8 volunteers educated on the challenges of preserving agricultural and natural heritage, who planted more than 200 trees of 12 different varieties.

FOCUS ON FINANCES

RESOURCES 2019-2020

Funds scheduled for the multi-year Action Plan	€75,000 of which €50,000 from Laboratoires M&L and €25,000 from M&L Distribution France
Amendment to the multi-year Action Plan	€1,250,000 of which €1,000,000 from Laboratoires M&L and €250,000 from M&L Distribution France
Solidarity products	€1,335,295
L'OCCITANE subsidiaries' budget	€489,411
Donations to the L'OCCITANE Ecosystem Restoration Fund	€300,000
Donations from employees of Laboratoires M&L and M&L Distribution France	€14,006
Financial products	€398

IN ADDITION TO THESE AMOUNTS, LABORATOIRES M&L AND M&L DISTRIBUTION ARE PROVIDING PREMISES, IT DEVICES AND SERVICES AND STAFF SALARIES, WHICH EQUATE TO AN ADDITIONAL BUDGET OF €305,805.
